This is an application for a Fire Protection System permit, requested in accordance with Beaver Creek Fire Code, Section 501.2.

In accordance with Beaver Creek Fire Code, Sections 102.4 & 107, the following provisions apply:

- 1) Issued permits shall be kept on the premises designated therein at all times and shall be readily available for inspection by the code official.
- 2) Applications for permits shall be accompanied by construction documents or site plans, as required by the code official for evaluation of the application.
- 3) An application for a permit for any proposed work or operation shall be deemed to have been abandoned six months after the date of filing, unless such application has been diligently prosecuted or a permit shall have been issued; except that the code official shall grant one or more extensions of time for additional periods not exceeding 90 days each if there is reasonable cause.

*The Beavercreek Fire Prevention Bureau reserves the right to impose a re-inspection fee of **\$50.00** per re-inspection. These re-inspections are inspections that are required above and beyond the normal number of inspections to ensure system completion and readiness. All re-inspections must be scheduled in the normal scheduling process for the Beavercreek Fire Prevention Bureau. Any cancellation of a re-inspection must be done so within one business day of the scheduled re-inspection. Failure to cancel the re-inspection within the required time will result in payment of the **\$50.00** re-inspection fee being required.*
